	Masters and Ladies Cycling Club Visibility Patrolling	Document Date: August 2007
		Review Date: July 2008
		Document Status: Approved

Report to the Race Organiser at the Trailer at the race venue 30 minutes before the start. You must have your cellphone with you, charged and on. Please ensure you have enough time to complete your duty properly, and that you have sufficient petrol as you may have to follow the tail-end rider for a while.

Equipment to be used from the trailer

- Orange safety bib
 - Red flag
- Remember to return these items to the trailer before you go home

What to do at duty point

- Your duty is to be visible at dangerous sections of the road where our cyclists like to cross the white centre line i.e. up Surrey Hills and down The Wall. You will be allocated to one of these positions.

Surrey Hills

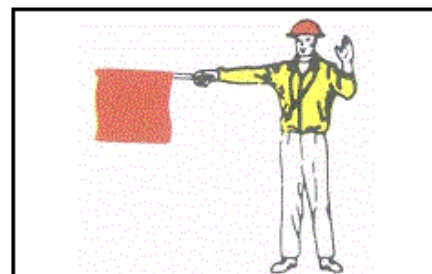

- Park your vehicle at the top of Surrey Hills in a safe area i.e. at the stop street or on the bend on the outside of the bend, clear off the road.
- Walk a couple meters down the hill and stand on the opposite side of the road to what the cyclist will be on. As the groups come up Surrey Hills, be visible and shout to the groups to remain on the left-hand side.

The Wall

- Park on the lower side of The Wall, well off the roads edge and don't endanger any vehicle of cyclist that are going up or down.
- Walk up The Wall past the bend in the road and stand on the opposite side of the road to what the cyclist will be on. As the groups come down The Wall, be visible and shout to the groups to remain of the left hand side.
- Note down any numbers that transgress and report any incidents or events to the race organiser immediately
- Be Visible but don't endanger yourself or any other road users because of the position you are standing in or parked your vehicle

EMERGENCY CELL PHONE WITH RACE ORGANISER
076 570 4636

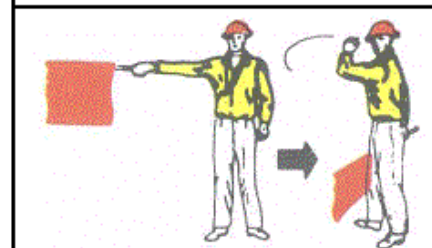

Marshalling– What signals to use to direct vehicle
Your Primary duty is to control and direct vehicle traffic. You do not have to indicate the route to the cyclists. It is each cyclists responsibility to know the route.

TRAFFIC MUST STOP

TRAFFIC MUST PROCEED

TRAFFIC MUST SLOW DOWN

TRAFFIC SHOULD BE CAUTIOUS

Marshalling– Where to place “Beware of Cyclists”

Place the signs on the road that joins into the route that the cyclists ride. Do not place on the road that is in the same direction as the cyclist route.
